
Your Mayer bar (male bar) is covered with thin stainless steel wire. The wire is very strong but if dropped it may break. Gaps between the wire lets only the right amount of wax through. If cleaned when taken out they will give you a good coating every time. If they come unwound near the ends, wrapping tape around the break will keep it usable. Properly used and stored a mayer bar can last a long time.

The 1978-79 Stiffel Lamp catalog has arrived. Anyone interested in purchasing lamps at a discounted price see Personnel Dept.

CONGRATULATIONS!!

Ed Fantry's wife had a baby boy on June 24th, weighing 7 lb. 3 ox.

Viktor Papke and his wife celebrated their 25th Wedding Anniversary on June 18th.

June 25th Anna Messer and her husband Tom celebrated their 25th wedding anniversary.

Rolf Papke Wins 3rd Place

Our own Rolf Papke in his first attempt at competitive boat racing finished 3rd at the annual Coscob Power Boat Race held in Greenwich, Conn. Rolf was beat out by two experienced competitors, one of which was last years winner. (this individual finished 2nd). The overall winner completed the race in record time and is currently in the running for state honors.

Rolf was supported in his efforts by several Dri-Print workers that made the trip to Greenwich to root him on.

A special thank you to all my friends for their kindness.

Faith is no guarantee against sorrow, only against defeat.

Joe Toth

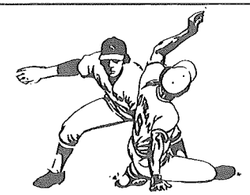
THE LION ROARS

DRI-PRINT FOILS | ISSUE VI | JULY/AUGUST 1979



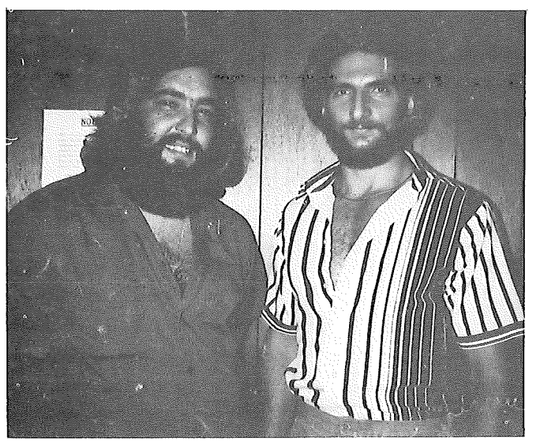
.. YANKS, METS, DRI-PRINT

Dri-Print Soft Ball Team just completed its most successful season, since entering the Rahway Park Dept. Soft Ball League. With an 11 - 7 record the team appeared to have a legitimate shot at league honors, but faltered during final tournament competition.

Injuries to a few key players set in-opportune times throughout the season and the championship tournament caused the team to fall short in its quest for the league title.

We are all confident that next years team will be faster and better and make a direct challenge in its efforts to capture the league title. One major factor lacking was fan support, which we all hope will be present next year. If you did not have the opportunity to watch the Dri-Print team in action, don't feel sad, they will be making their last appearance as a team at the company picnic on Saturday, September 8th.

Team and Spectators watch tournament action.



Sam Baum (left) and Henry Saginario (right) chosen for All Star Team.

C. D. & THE FINEST

Pictured above left to right Andre (base guitarist) Darryl (Drummer) Joe (lead guitarist) Charles (lead singer, organ) Annie (lead singer) Dave (Singer-Bongos) Not pictured Rickie and Michael play horns.

C. D. & The Finest have been playing for about three years. They write their own music and do original songs. They have played in many night clubs in the New Jersey and New York area. Joe Biggs started the group and Annie joined them just recently. Annie has sung in gospel groups and has done background singing at music studios.

On September 2nd C. D. & The Finest are going to North Carolina to appear at the National Guard Armory. There will be talent scouts looking for new talent. The group will be doing two of their original songs "Dreamin" and a "Sight of Happiness" and "Greatest". Annie will be doing "Bad Girl," "Its All Right" and "Easy." Joe Biggs will do his song "Fool In The Street."

EMPLOYEES EARN PROMOTIONS

Bob Franzblau has been promoted to Industrial Facilities Engineer.

John Wheatley has been promoted to Production Control Manager.

Horace Douglas in Coating Dept. was promoted to Coating Supervisor.

Just recently Richard Palmatier has been promoted to Gravure Cylinder Supervisor.

Pictured above is Maureen Rooney, all smiles, having learned that she is the 1000th employee working for Dri-Print since Beatrice Foods took over the operation in August of 1974.

August 1979

My Dear Co-Workers,

Once a year there is the call for blood donors The time has come again. You are needed **NOW** to give less than a pint of blood, if you are able.

For the amount you give, you and your immediate family are covered for as many pints that may be needed.

In special cases you can even have pints donated to friends in need.

Please help if you can!!!

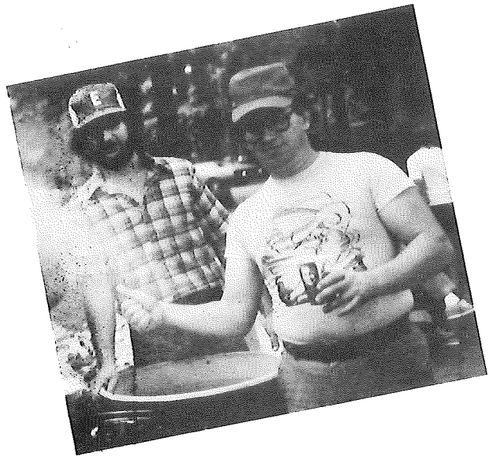
Register in the dispensary before September 13, 1979.

DATE OF BLOOD DRIVE
SEPTEMBER 14, 1979
9:00 am - 6:00 pm

Sincerely yours,
Ellie Rivers, RN

Note: Eat normally that day just avoid heavy amounts of eggs, butter, milk and cheese. If you are on medication check with me.

More Picnic Fun . . .



Happy Birthday To . . .

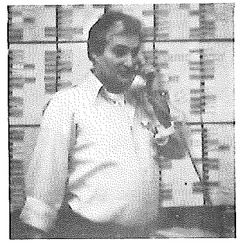
Voice Your Opinion

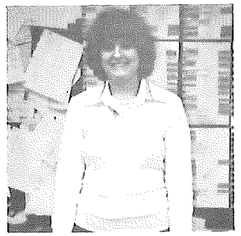
The employees appearing in this column were asked their views on this controversial question.

Do you think women sould be included in the Draft?

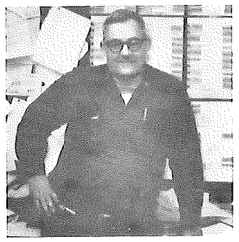


Corrado Lelli: No - I don't think women should be drafted. Women have enough to do at home raising children, and taking care of the house. I also think women are inferior to men when it comes to the military. If women were drafted, this country would be in worse shape than it is now. Sorry girls.

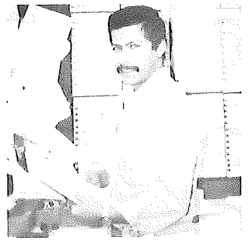
Iris Roberts: No - I don't think women should be drafted. Let the girls volunteer; if they want to go, let 'em go.



Carol Batiuk: No - I don't think women should be drafted because the men who are in the service would feel much better if they know that their loved ones are at home and safe. Furthermore, I think men can handle this incident in Afghanistan without the help of us women.



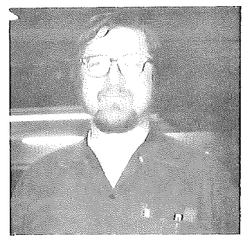
Emil Witzgal: No - I don't think they should be drafted. If the country gets to the point where our manpower is not sufficient, and help from our women would be necessary, then women should be drafted. I believe a woman's place is at home because that's where I'll be.



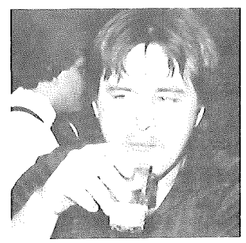
Hector Pacheco: Yes - I think they should be drafted. Ship 'em out! Women want equal rights and equal opportunities so here's a chance for all you women who think you can do everything as well as the men - let's see it. Good luck!

Ed Poberneski: Yes - Equal work for equal pay. They should do a man's job too.

Marge McGurk: Yes - Why shouldn't they be drafted? If they want equal rights, they should be willing to take what comes. They shouldn't go to the front lines, but they should be drafted.



Joe Toth: Certainly - I think they could do desk work, paperwork; they would be very valuable to us. I don't believe a woman's place is in the home anymore.



Adrian Papke: Yes - If a women believes in woman's lib, let her get her _____ out there and fight.

DRI-PRINT HOLDS PRODUCTIVITY SEMINAR

The Second Annual Supervisor's Seminar was recently held at the Tamiment Resort and Country Club in the Poconos during the second weekend in February. The theme of this year's seminar was "PRODUCTIVITY." In accordance with Beatrice efforts in this area, presentations were made by the following Beatrice Chemical (Massachusetts) representatives: Roger Jones, Group Manager; George Shouldis, Division Controller; and Sid Feldman, Director of Engineering. Steve Morris, Group Vice-President of Drake-Beame Associates, also spoke to the group. The following day, a workshop highlighting the specific tools which, if utilized, bring about improvements in productivity, was conducted by Bob Fenton, Project Manager - Operating Services Department, Beatrice Foods (Chicago), Bob Franzblau and Gerald Pankulics, both of Dri-Print's Engineering Department.

A short motion picture, illustrating the hazards experienced by industrial operations in the United States when they attempt to combat the current nationwide trends towards decreased productivity, was presented. The movie was received in such a favorable manner that it has been selected for presentation at our Annual Service Awards Dinner.

It is hoped that a new philosophy will emerge within this organization. A philosophy created out of a desire by our employees and supervisory personnel to take more pride in the performance of their daily functions, thereby providing us all with the security associated with a growing and profitable organization.

QUOTES

"It is better to debate a question without settling it than to settle a question without debating it."
Joseph Joubert

GIRLS SOFTBALL TEAM

We are currently in the process of recruiting girls for a softball team here at Dri-Print. We've already signed up some enthusiastic employees but we still need more to complete the team.

You don't have to be athletic or even coordinated, the only requirement is a fun-loving spirit and energy to burn.

Details concerning practices and games can be obtained at the Personnel Department. If you want to play or are just curious, stop in or give us a call.

CARROT & PINEAPPLE CAKE

3 cups sifted flour
2 tsp. baking soda
2 tsp. cinnamon
¼ tsp. salt
1½ cups cooking oil
2 tsp. vanilla
2 cups sugar
2 cups finely grated carrots
1 - 8 oz. can crushed, unsweetened pineapple (partially drained)
1½ cups chopped nuts
½ cup raisons

Sift flour, soda, cinnamon and salt. Mix together the oil, the sugar, half of the dry ingredients and half of the sifted flour then blend well. Beat in carrots, pineapple, vanilla and nuts. Add remaining dry ingredients and beat well. Add eggs, one at a time, beating well after each. Pour into a greased and floured tube pan. Bake at 350 degrees for 70 minutes. Test with a fork. Make sure to cool it before turning it over.

Cream cheese icing is nice but not needed. It's delicious as is!!!

JOKES

Georgie Gassert

What does a duck do when he flies upside down? (Quacks up)

Hear about the butcher who backed into his meatgrinder? (He got a little behind in his work)

What did the golfer say just before they hung him? (How about a few practice swings)

If it wasn't for venetian blinds, it would be curtains for everybody.

Who is the greatest football fan in the world? (The undertaker - he's always there for the kick-off)

The only thing that kept Georgie Gassert out of college was grammar school and high school.

How about the fellow who wanted to wear white and brown shoes one morning but couldn't cause he lost his brown one.
